

```
1  #include <stdio.h>
2  int main()
3  {
4      char ch;
5      printf("enter the value of char");
6      scanf("%c",&ch);
7      if (ch=='a' || ch=='e' || ch=='i' || ch=='o' || ch=='u' ||
8          ch=='A' || ch=='E' || ch=='I' || ch=='O' || ch=='U' ||)
9          printf("vowel");
10         else
11             printf("consonant");
12
13 }
```
